Description of web-site:

We have created a grocery website which intends to display vegetables, fruits, dairy products and organic products for being purchased.

Each one of us will play an important role in creating this website, we all will spend a good amount of time in properly planning the structure of this project. That being said, here are the individual roles

Ashish: to write code in HTML to create the basic outlay of the project, to debug the project at the end and fix any errors

Kamran: to write the CSS part of the project, and play an important role in visualizing the various details and depth we will add in the site.

Hardik: to write the CSS part of the website do research work in order to make the site more attractive and ensure teamwork.
